

Applications:

MILITARY & NGO

Troop Shelter

- > Dimensions: 5m x 8m
- > Internal height: 2,30m
- > White or colored PVC
- > Structure made of aluminium tubes
- > Cast aluminium corners
- > Fast and easy to install
- > Interchangeable parts

The **TROOP SHELTER** is an ideal multipurpose camp tent, for applications like NGO's, military or any situation that requires a solid, simple and easy-to-install structure.

The structure is made of anodized aluminium tubes (diameter: 63.5mm diameter and thickness: 2.5mm). Connecting pieces are cast aluminium corners. The assembly is made without pin, bolt and requires no tools.

The fabric is a fireproof (M2) opaque PVC tarpaulin covering sides and roof, with two removable covers for gable façades.

This tent can be set up in 15 minutes by 3 people and can accommodate 12 people.

TECHNICAL FACTS	
Model	TS 5x8m
A (m)	4.85m
B (m)	1.77m
C (m)	2.43m
Tubes	Ø 63.5mm - 2.5mm
Length tubes (m)	1.74m & 3.80m
Longest part (m)	3.80m
Total weight (kg)	180kg
Packing dimensions	PVC: 0.8 x 0.8 x 0.6m Tubes: 3.80 x 0.8 x 0.8m Parts: 1.0 x 1.0 x 0.8m

Other sizes upon request

Cast aluminium corners

Frame made with aluminium tubes

Steel footplates

Lacing on sides

Universal corner

The cast aluminium corner is the unique and interchangeable assembly piece for the TROOP SHELTER.

The lower fins (A) allow the suspension of an inner insulation fabric or lighting.

The upper wings (B) are used for installation of bracing cables for applications in areas of high storm.

Customization

We can customize the TROOP SHELTER according to your wishes: choice of tarpaulin color, printing of logo or visuals, new sizes, etc.

Accessories

Optionally, we can offer you a wide range of accessories: transparent windows, mosquito nets, indoor roof, air conditioning unit, etc.

Other applications

The speed of installation enables the TROOP SHELTER to be used for other applications such as marketing campaigns, aid stations, festivals, etc.
